

Follow these steps to collect an Amplify API key that has been delegated to you:

1. Login to Amplify at: www.vanderbilt.ai
2. Click your user icon in the top right corner of the screen and select “Settings”

3. Navigate to the “API Access” tab and scroll down past the “Your API Keys” section to the “Delegated API Keys” section.

The image consists of two vertically stacked screenshots of a web-based settings interface for Amplify services, specifically focusing on API access management.

Screenshot 1: API Key Management (Top)

This screenshot shows the "API Access" tab selected in the top navigation bar. Below the tab, the "API Key Management" section is visible, featuring a lock icon and a brief description of what API keys are used for. A red oval highlights the "API Access" tab, and a red arrow points from the text above to this highlighted tab.

Screenshot 2: Delegated API Keys (Bottom)

This screenshot shows the "API Access" tab selected again in the top navigation bar. Below the tab, the "Delegated API Keys" section is highlighted with a red oval and a red arrow pointing from the text above to it. This section displays a single entry for a "Delegate" key, showing the owner's email (maximilian.r.moundas@vanderbilt.edu), the last access date (Sep 30, 2024 at 4:22:37 PM CDT), a "Rotation Required" status indicator, and an "Active" status.

4. You can view a key that has been delegated to you by selecting the key and clicking “Rotate Key”. Here, the key will be presented to you. You can copy it and use it in your scripts.

The screenshot shows a web browser window with the URL www.vanderbilt.ai. The page is titled "Settings" and has a navigation bar with tabs: Configurations, Accounts, API Access (which is highlighted in blue), Integrations, Conversation Storage, and Legacy Workspaces. Below the navigation bar, there is a section titled "Delegated API Keys". A single key is listed under this section:

Delegate	Owner	Expiration	Rate Limit
	maximillian.r.moundas@vanderbilt.edu	N/A	Unlimited
Last Accessed:	Sep 30, 2024 at 4:22:37 PM CDT		

Below the key details, there is a "Key Management" section with the text "Replace with a new key if compromised or lost". A red arrow points from the text "Replace with a new key if compromised or lost" to the "Rotate Key" button, which is highlighted with a red circle. The "Rotate Key" button has a gear icon and the text "Rotate Key". At the bottom of the page, there is a note: "Generate a new API key while preserving all settings and data". On the right side, there are "Cancel" and "Save" buttons.
